Abstract: Here you write abstract.

Keywords: Here you write key words.

1. INTRODUCTION

This is the introduction of the paper.

2. MY ONLY SECTION

Conference papers use normal size for the first letter of the conference paper.

The **iot!** (**iot!**) is becoming very popular. One of the elements of **iot!** are embedded systems. There is a lot of **iot!**s devices currently on the market the acronym for them is **iot!**s.

On the **fri!** (**fri!**) you will learn about **ram!** which is short for **ram!**.

The monkeys are very smart animals Chang and Guo (2018). They are shown in Fig. 1.

Fig. 1. Nice picture of monkey fig (2024)

We can use vibrational energy harvesting during monkey studies Roundy et al. (2003). Its basic principle is shown in Fig. 2.

This is how you should cite text that has multiple sources Chang and Guo (2018); Roundy et al. (2003).

In table 1 we have some measured data.

[★] Sponsor and financial support acknowledgment goes here.

Fig. 2. Vibrational energy harvesting principle Orfei (2019)

Table 1. My first table

	<i>a</i>	<i>b</i>	<i>c</i>
<i>a</i>	1	0	1
<i>b</i>	0	1	1
<i>c</i>	1	1	0

And in the (1) is shown a very simple formula. Based on which the variable *a* is a sum of two variables *b* and *c*.

$$a = b + c \quad (1)$$

We can also calculate the value of variable *c* by altering the equation as in (2).

$$c = a - b \quad (2)$$

This way we can create a plain unnumbered list.

Hope
Elizabeth
Josette

This way we can create an unnumbered list.

- Hope
- Elizabeth
- Josette

This way we can create an numbered list.

- (1) Hope
- (2) Elizabeth
- (3) Josette

This way we can create lists with descriptions.

red nice colour

blue not very nice colour

3. CONCLUSION

This is the conclusion of the paper.
